### Lighting from A to Z

From day one, we have had several goals, the first being to make working with light as simple and easy as possible for photographers at every level.

To make things more simple, more intuitive, our team has invested two years in developing the next generation of the Phottix products. The key to this simplicity is the new Odin Z Operating System.

Odin Z keeps the most-loved Phottix features and adds cutting-edge options and technologies. Best of all, it's available to all Phottix users through a firmware upgrade. We believe in moving forward while leaving no one behind.

#### The Odin Z System features:
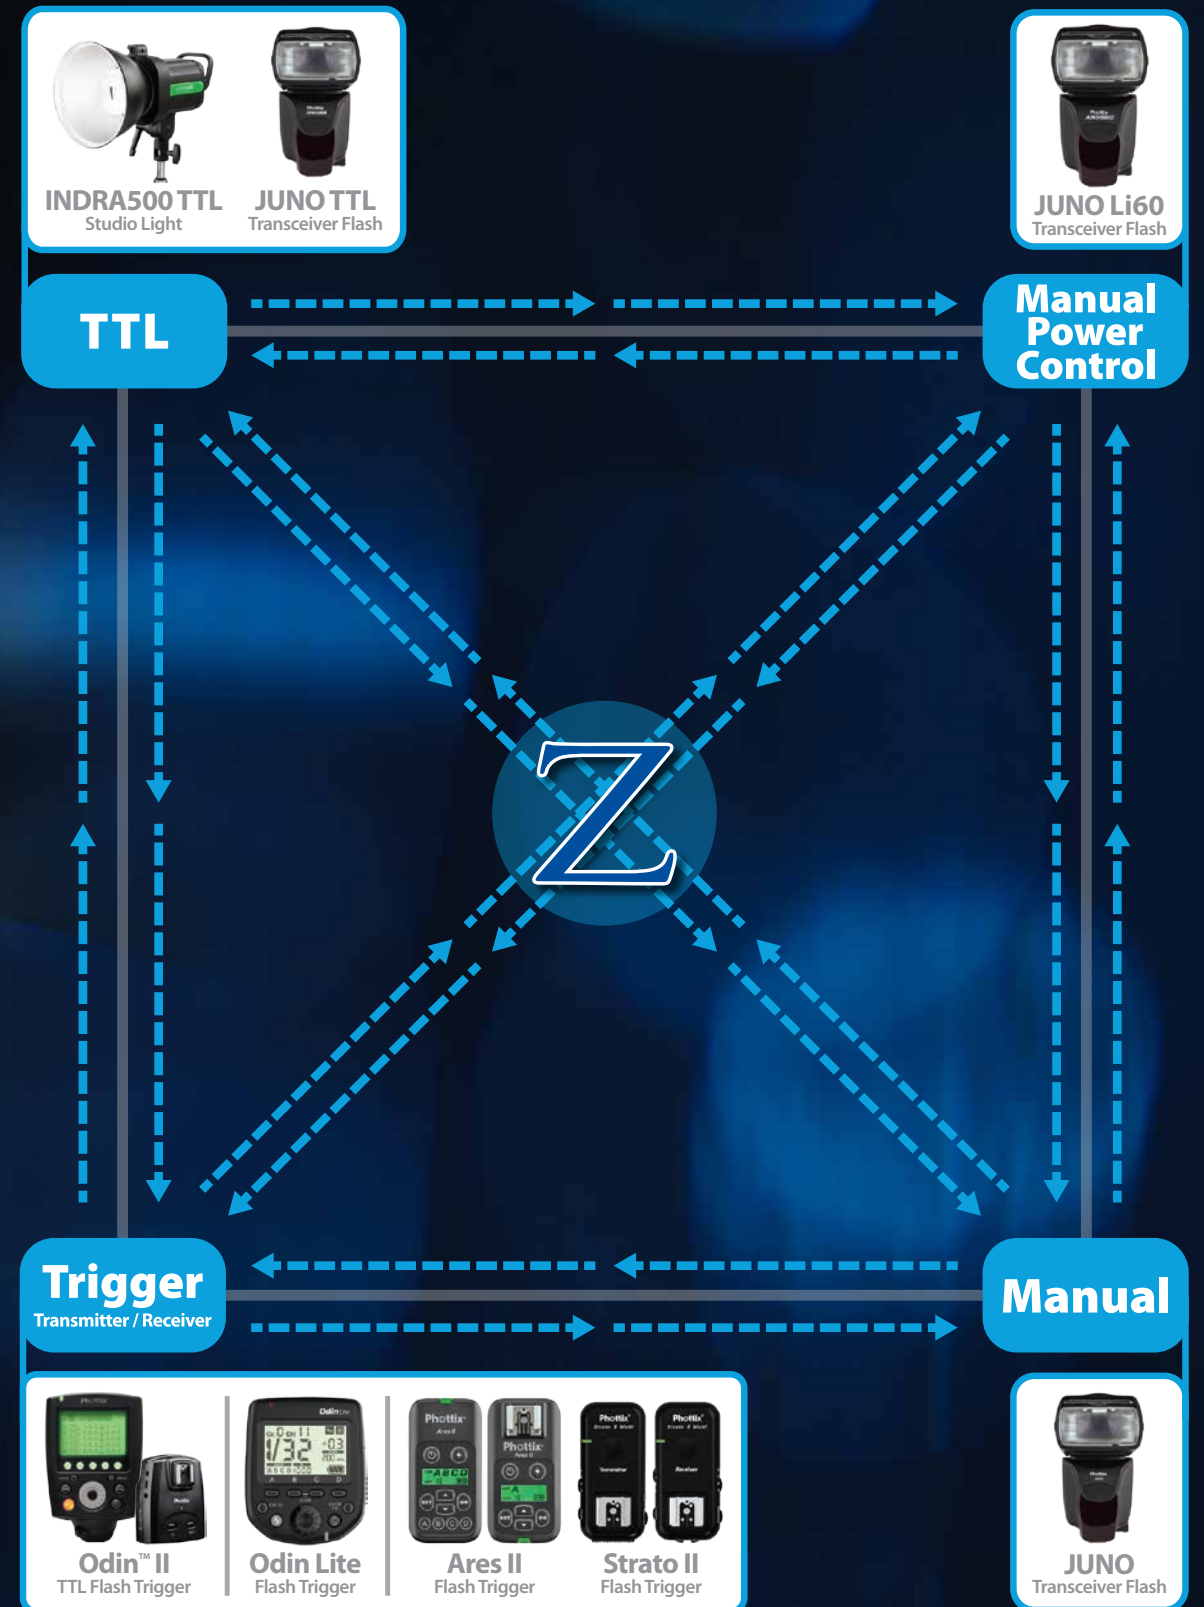

**Odin Z OS**   **Auto-Switching**   **Auto-Metering**

Auto-Switching - **Every TTL system is built into every product**
Auto-Metering - **Phottix products will tell you what power level to set**
Real-Time Displays - **Power levels displayed on products and triggers**
Simplified - **Software and hardware protocols have been upgraded and streamlined for easier use.**

Phottix's technology has evolved and we want to ensure our customers can use this technology to evolve their skills and advanced their hobby or career. No matter how challenging the image they set out to create, working with Phottix gear should be anything but challenging.

From hobbyists to seasoned professionals Phottix provides lighting solutions from A to Z.

# Raja Quick-Folding Softbox
## Hail to the King

Softboxes are a must-have light shaper. Want to harness light, bend it to your will and make it your servant? Nothing is better than a softbox. They provide for countless looks and possibilities – making your photographic potential limitless.

### The Phottix Raja series features:

- Heavy-duty construction
- Uses Phottix's Heat resistant SL Tech material
- Easy to assemble
- 7 sizes and styles
- Swapable speed rings for popular lighting brands
- Travel Bag included

Assembling most softboxes leads to anxiety, frustration and mumbled curses. Speed Rings, rods, and fabric result in you bending and twisting like an Olympic diver to get the box assembled.

Not with the new Phottix Raja – Hail to the King.

# Raja Deep
## Quick-Folding Softbox

### Why Deep?

Deep Octa Softboxes are loved by professional photographers - and for good reason: They produce a more directional light with greater contrast than traditional softboxes – with more even illumination. They are versatile – offering different looks by adding of subtracting the baffle and or diffuser.

## Folding Beauty Dish

### The new generation of Phottix Beauty Dishes

The Phottix Luna II 60 Folding Beauty Dish is Phottix's next generation of the popular Phottix Luna series. Like the original Luna - the Luna II makes taking a beauty dish on location easy.

Features:

- Fast set up
- Internal metal supports
- Integrated speed ring
- Compact
- Use a beauty dish or octa softbox

SKU: 82760  Phottix Luna II 60 Folding Beauty Dish (60cm, 24", White)

It folds down and is easier to transport than traditional metal beauty dishes. Great to take on-location. The Luna II features an integrated S-Type speed ring with locking metal supports. The light characteristics of the Luna II are comparable with conventional metal beauty dishes.

The Luna II is the perfect companion to the Phottix Indra series or Phottix hot shoe flashes when mounted on the Phottix Cerberus. The Luna II 60 features a white interior, and diffuser and fabric grid.

# Spartan
## Beauty Dish (50cm and 70cm)

The perfect on-location light modifier, the Phottix Spartan Beauty Dish assembles easily using flexible rods, a huge benefit over the time-consuming setup of traditional octa softboxes.

The white interior produces softer, more even light. Included in the kit are a metal beauty dish "disk", baffle, front diffuser and fabric grid.

The Phottix Spartan comes in two popular sizes–50cm / 20 inches and 70cm / 28 inches – perfect for single subjects and couples. Use with the award-winning Phottix Indra series of studio lights or mount to the Phottix Cerberus Hot Shoe Flash Mount.

# EasyUp HD
## Umbrella Softboxes
### Dramatic Portraits
### Just add Light

The Phottix Easy-Up HD Umbrella Softbox series was made with portability in mind.

Features:

- folds down like an umbrella
- easy to transport and store
- assembles instantly
- grid included
- great with hot shoe flashes

Perfect for on-location shooting. It folds down like a regular umbrella and expands straight into softbox for instant use, saving time over traditional softboxes which require rods and speed rings for assembly. The recessed-front diffuser allows for more precise positioning and feathering of light. Fabric grid included.

## "Amazing !!"

### Mark Rigsby - MDR Foto Art, Houston

"This is an amazing shoot-through you have made...The light diffusion is fantastic. It spreads the light well and the backing helps the fall - off as the light gets closer to the feet while retaining definition.

This is not something I can do easily with my single beauty dishes set-up unless I up the power. Even then it's not as even because it's a more concentrated light source"

# Premio
## Parabolic Umbrellas Series

The Premio Series feature innovative enhancements, making them both a durable and premium "go-to" lighting modifier.

The umbrellas feature heavy-duty construction, made with fiberglass spokes for cleaner catch-lights and enhanced durability - that will stand up to the rigors of on-location work. The locking mechanism has been redesigned, making it stronger and easier-to-use.

White diffusers are available for the Phottix Premio Reflective models - easily turning them into a large softbox. A black, reflective backing is available for the shoot-through models – helping to better control light spill, as well as putting more light on target.
